- 10.2 We will measure your metered consumption of electricity at the intervals set down in the Applicable Regulations (in NSW, this will be at least once every six months). We will reconcile any amount paid by you with the consumption measured.
- 10.3 In general, if you have an interval meter, all times will be Australian Eastern Standard Time (otherwise Australian Central Standard Time in SA) and daylight savings time will apply, if relevant. If you have a basic meter, times will be set by your meter provider. Please not specific customers may have alternate time basis as set by your meter provider.
- 10.4 In general, if you are a Residential Customer we will invoice you quarterly and if you are a Small Business Customer we will invoice you monthly, unless stated otherwise in this Agreement or if your Distributors meter reading cycle dictates otherwise.
- 10.5 We will issue an Invoice to you by email to your nominated email address or to your Supply Address or to another nominated postal address in accordance with the Applicable Regulations.
- 10.6 We may change the Invoicing Period by notice to you, so long as it is no less than once a month and complies with the Applicable Regulations.
- 10.7 If you require a meter changeover or meter reprogramming, your initial Invoices may be delayed due to delays in us receiving meter data and/or payments from your Distributor.
- 10.8 Unless stated in your Agreement or otherwise agreed in writing with you, if the amount payable included in your Invoice in any Invoicing Period is in credit:
- (i) if the credit amount is greater than \$50, and if you have a Direct Debit Agreement in place with us, will be paid automatically to your nominated bank account as per the terms of the Direct Debit Agreement at no charge;

- 10.10 No interest is payable by us on credit amounts.
- 11. Your Payments to Us**
- 11.1 You must pay each Invoice in full by the Due Date included in the Invoice. If for whatever reason you cannot pay by the Due Date, you must advise us as soon as possible. We have a range of payment plans and invoice smoothing options that may assist you if you are experiencing payment difficulties which we can explain.
- 11.2 If you fail to pay the Invoice in full, including all the Charges on the Invoice, by the Due Date (unless the Invoice is under review) we may, in accordance with the Applicable Regulations, do one or more of the following:
- (i) apply any Security Deposit we hold in relation to this Agreement towards payment of the Invoice; or
 - (ii) disconnect or discontinue your supply under this Agreement after following procedures specified by the Applicable Regulations (please refer to Clause 17); or
 - (iii) refer your Invoice for collection by a debt collection agency; or
 - (iv) charge you a fee covering our reasonable costs of recovering any outstanding amount from you where we are not prohibited by Applicable Regulations from doing so.
- 11.3 Unless we make a different agreement with you in accordance with the Applicable Regulations, you can pay your Invoice by any of the payment options listed on your Invoice.

- 11.4 If your payment is dishonoured or reversed, which results in us incurring a fee, we may recover the amount of that fee from you and we may recover any additional costs we incur as a Dishonoured Payment Fee, unless we are prohibited from doing so by the Applicable Regulations.
- 11.5 If you request us to do so, we will accept payment in advance for the supply and sale of electricity and other products under this Agreement.
- 11.6 There are payment options available to you if you are suffering certain financial difficulties, including payment plans, invoice smoothing and government energy assistance schemes. If you are experiencing financial difficulty you should let us know.
- 11.7 If you request us to do so, we may provide you with estimated Invoices under an invoice smoothing arrangement.
- 11.8 If you are a Small Business Customer we may charge you interest on a late payment where not prohibited by Applicable Regulations from doing so.
- 12. Over or Under Charges**
- 12.1 On request we will review your Invoice. When we are reviewing your Invoice, you must pay by the Due Date the portion of that Invoice that is not in dispute or an amount equal to the average amount of your Invoices in the previous 12 months (whichever is lower) pro-rated for the billing period, and any future Invoices that become due.
- 12.2 You may request to have your meter tested during the review. Unless your Supply Address is in Victoria, we may request that you pay in advance the costs for testing the meter. If you do not pay for the testing of your meter in advance we are not required to test the meter. If the meter or metering data is found to be faulty or incorrect we will refund any amount paid in advance (or set this off against any amount of the Invoice that is still outstanding) and you are not liable to pay the cost of testing. If your Supply Address is in Victoria and we test the meter and find it complies with the Applicable Regulations, you must pay the cost of the meter test.
- 12.3 If the Invoice under review is correct, you must pay the unpaid amount still outstanding. If the Invoice under review is incorrect, we will correct the Invoice and repay any amount overcharged.
- 12.4 We will not pay you interest for overcharged amounts unless required by the Applicable Regulations.
- 12.5 If you have been overcharged as a result of your unlawful act or omission, we will only repay, credit or refund to you the amount you were overcharged in the 12 months before the error was discovered.
- 12.6 If you were undercharged or not charged, we will only seek to recover from you amounts undercharged in the nine months prior to notifying you of the undercharge. If your Supply Address is in Victoria, this period may be 12 months in limited circumstances.
- 12.7 In the event that you are not, or you cease to be, a Residential Customer or Small Business Customer, then from the time you cease to be a Residential Customer or Small Business Customer, or from the date electricity supply starts under this Agreement (if you were not a Residential Customer or Small Business Customer at any time during the Agreement Term) we may seek to recover any amount undercharged or not charged from you without any time limit. If we do so, this will not otherwise affect our rights under this Agreement (including our right to terminate the Agreement) or affect our ability to choose to continue to supply you with electricity under this Agreement notwithstanding that you are not a Residential Customer or Small Business Customer.
- 13. Moving In or Moving Out by You**
- 13.1 If you intend to move from your Supply Address, you must give us at least 3 Business Days notice of the date when you intend to vacate, and give us a forwarding address where we can send you a final Invoice (except for electricity supply in New South Wales, in which case you must give us at least 72 hours' notice). When we receive the notice, we will use our best endeavours to ensure that the meter is read at a date and time agreed with you (or as soon as possible after that date if you do not provide access to your meter on that date).
- 13.2 If you notify us that you are vacating your Supply Address, then this Agreement will end when your site is de-energised or transferred to another electricity retailer. However your obligations under this Agreement continue until you make full payment of any outstanding amounts owing.
- 13.3 If you do not provide the required notice, or if you do not provide access to your meter, you will be liable for all charges in relation to the electricity sale and supply to your Supply Address that relate to the quantity of electricity consumed at your Supply Address and other products, until:
- we become aware that you have vacated your Supply Address and your meter has been read;
 - you give us the required notice and provide safe access to your meter;
 - the electricity supply is discontinued or transferred; or
 - we enter into an Agreement in relation to the Supply Address.
- 14. Your Obligations to Us**
- 14.1 The title and risk in the electricity supplied to you under this Agreement will pass to you at the point of connection with your Supply Address.
- 14.2 Subject to the Applicable Regulations, you indemnify us:
- against any liability arising out of the use of electricity supplied under this Agreement after risk in the electricity has passed to you; or
 - where we have suffered any loss or damage arising as a result of your failure to comply with this Agreement or your negligence in respect of this Agreement but only to the extent that we would otherwise have been able to recover against you for your breach of this Agreement or negligence under the principles applied by the courts. However, you are not liable to us for any loss or damage to the extent that it is caused by us (for example through our negligence or breach of this Agreement).
- 14.3 You, as our customer, and we, as your electricity retailer, must comply with the Applicable Regulations and any other relevant code or law that applies to the supply and sale of electricity, and other goods or services, to you.
- 14.4 You agree to give us (and our representatives and your Distributor and any meter provider nominated by us) safe, convenient and unhindered access to the meter at the Supply Address to read it and for connection, disconnection and reconnection purposes. If you do not give us (or our representatives or the Distributor or our nominated meter provider) such access to the meter and we estimate your electricity consumption, we may charge you an additional

amount if you later request an Invoice based on an actual reading of the meter.

14.5 You must co-operate with any reasonable requests that your Distributor makes of you, and allow your Distributor to enforce its rights under the Applicable Regulations.

14.6 You must take reasonable steps to mitigate the extent of any loss or damage you suffer as a result of the provision of electricity under this Agreement (except in Victoria, where this only applies if you are a Small Business Customer).

14.7 You must inform us of any relevant change in your contact details as soon as possible after the change occurs.

15. Continuity of Supply to Your Supply Address

15.1 We are an electricity retailer and have no control over production, generation or distribution of electricity.

15.2 Where this Agreement refers to us supplying you with electricity or connecting your Supply Address, it is a reference to us arranging for that supply or connection by your Distributor.

15.3 Your Distributor will supply and connect your Supply Address and is responsible for the physical delivery, quality or reliability of electricity supplied to your Supply Address. This means that:

- (i) we make no promises or assurances about the quality and reliability of your electricity supply. These are subject to a variety of factors that are beyond our control as your electricity retailer, including accidents, emergencies, weather conditions, vandalism, system demand, the technical limitations of the distribution system and the acts of other persons (such as your Distributor), including at the direction of a relevant authority; and
- (ii) to the extent permitted by law, we give no condition, warranty or undertaking, and we make no representation to you, about the condition or suitability of electricity, its quality, fitness for purpose or safety, other than those set out in this contract.

15.4 Without limiting our rights under this Agreement you agree we may disconnect, curtail, interrupt or reduce the electricity delivered to your Supply Address:

- (i) if required by your Distributor;
- (ii) if required for the performance of any aspect of this Agreement;
- (iii) in an emergency or for safety reasons;
- (iv) for inspections, maintenance, or testing;
- (v) at the direction or request of a regulatory body; or
- (vi) for a reason specified in Applicable Regulations.

15.5 You also acknowledge that you may not receive electricity as a result of events beyond our control. These include:

- (i) your Distributor or another party interrupting supply to your Supply Address;
- (ii) a failure in the equipment used to supply you with electricity; and
- (iii) there not being enough electricity available to supply to you.

15.6 This Agreement does not vary or exclude the operation of the Applicable Regulations.

16. Force Majeure Event

16.1 If, as a result of a Force Majeure Event, either you or we would be in breach of this Agreement then your or our obligations under this Agreement are suspended to the

extent that they are affected by the Force Majeure Event, except that both we and you must comply with our obligations in the Applicable Regulations. This applies for as long as the Force Majeure Event continues.

16.2 The party affected by a Force Majeure Event must give the other party prompt notice of the Force Majeure Event, including full information about the Force Majeure Event, an estimate of its likely duration, the obligations affected by it, the extent of its effect on those obligations and the steps taken to remove, overcome or minimise its effects.

16.3 A person claiming a Force Majeure Event must use their best endeavours to remove, overcome or minimise the effects of the Force Majeure Event as quickly as possible. This does not require either of us to settle any industrial dispute in any way we do not want to.

17. Disconnection by Us

17.1 Subject to the Applicable Regulations and Clause 17.2, we may disconnect your electricity supply in the circumstances permitted by the Applicable Regulations or the following circumstances:

- (i) on your request; or
- (ii) if you fail to pay Charges on your Invoice related to the sale of electricity or other products by the Due Date and we have followed any procedures required by the Applicable Regulations; or
- (iii) if you have denied us, or an authorised agent, access to your Supply Address in accordance with the Applicable Regulations for three consecutive meter readings, or where you are not the owner of the premises, have not taken all reasonable steps to ensure the owner or other person responsible for the premises allows access; or
- (iv) if you have refused to provide a Security Deposit when we have requested you to do so in accordance with the Applicable Regulations; or
- (v) if you have used electricity at the Supply Address fraudulently, or intentionally consumed electricity at the Supply Address otherwise than in accordance with electricity laws;
- (vi) if you have not agreed to an offer of a payment plan or other payment option when we have required you to do so in accordance with Applicable Regulations; or
- (vii) if, as per our residential customer hardship policy, you are a Residential Customer in our customer hardship programme and have ceased participating.

We will only disconnect your electricity supply in the circumstances permitted by the Applicable Regulations and after we have followed any procedures set out in the Applicable Regulations.

17.2 Except as permitted by the Applicable Regulations, we will not disconnect you while:

- (i) any application made by you for assistance under any Government funded rebate or relief scheme that is available to you is pending; or
- (ii) any application made by you to us for assistance under any payment plan that is available to you and operated by us is pending; or
- (iii) you are participating in our residential customer hardship programme and you continue to demonstrate commitment and adhering to the agreed payment plan as per our residential customer hardship policy and the Applicable Regulations; or

- (iv) you have made a complaint, directly related to the reason for the proposed disconnection, to us under our standard complaints and dispute resolution procedures, or to the energy ombudsman in your state, and the complaint remains unresolved; or
 - (v) any life support system that relies on electricity for its operation is in use at your premises.
- 17.3 There are restrictions on disconnecting you if you are suffering certain financial difficulties. If you are experiencing financial difficulty you should always let us know. In this circumstance, we will reconnect you in accordance with the Applicable Regulations.
- 18. End and extension of Your Agreement with Us**
- 18.1 Subject to the Applicable Regulations, we can end this Agreement after the Commencement Date, if:
- (i) 10 Business Days after you have been disconnected by us in accordance with Applicable Regulations and you do not have a right to be reconnected;
 - (ii) a different electricity retailer has become financially responsible in the wholesale market to pay for electricity used at the Supply Address; or
 - (iii) another person commences to be supplied with electricity at the same Supply Address with us or with another supplier; or
 - (iv) you cease to be, or are likely to cease being, a Residential or Small Business Customer.
- 18.2 This Agreement ends at the end of the Agreement Term and if there is no further Agreement entered into by you, we will continue to supply you as per these terms and conditions. We may vary your Agreement, including the Charges, in accordance with the provisions of our Agreement in those circumstances.
- 18.3 If you accept another agreement to buy electricity and other products from us, you will be taken to have given us notice that you wish to end this Agreement on the date that your new agreement commences and any relevant Cooling Off Period has expired.
- 18.4 If a different electricity retailer has become financially responsible in the wholesale market to pay for electricity used at your Supply Address, and your Supply Address includes an eligible Energy Generation Facility with related Charges that apply to you for the Energy Generation Facility, your obligations in Clauses 8 – 14, Clause 16 and Clauses 18 – 29 of these terms and conditions continue for the term of your Feed-in Agreement.
- 18.5 When this Agreement ends, you are still required to make any outstanding payments to us and we have no further obligation to sell electricity and other products or other services to you under this Agreement.
- 18.6 This Agreement will end if we are no longer entitled to sell electricity due to a Last Resort Event (where applicable). Upon the occurrence of a Last Resort Event, we will provide specified customer details to the retailer of last resort within the period prescribed by the Applicable Regulations.
- 18.7 If you are a Residential Customer and cancel your Agreement after the Cooling Off Period and before the end of the Minimum Supply Period, we may charge you a Termination Fee unless you end this Agreement in accordance with Clause 9.7.
- 18.8 If you are a Small Business Customer and cancel your Agreement before the end of the Minimum Supply Period, you may be subject to loss and damage charges as outlined in the terms and conditions.
- 19. Warranties**
- 19.1 To the fullest extent permitted by law, all warranties implied by common law or statute are excluded from this Agreement. You have non-excludable rights under the Australian Consumer Law as a consumer of the electricity we provide to you. If any part of this Agreement is unlawful, unenforceable or invalid, that part is to be treated as removed from the Agreement, but the rest of the Agreement is not affected.
- 20. Laws Applicable to this Agreement**
- 20.1 This Agreement is governed by the laws in force in the State or Territory of your Supply Address. You agree to submit to the non-exclusive jurisdiction of the courts in the State or Territory of your Supply Address.
- 21. Change in Law**
- 21.1 This Agreement is subject to change as a result of any change in any of the Applicable Regulations. If in our reasonable view any change in the Applicable Regulations materially alters either Party's rights, entitlements or obligations under this Agreement, we may amend this Agreement to take into account such changes by written notice to you.
- 21.2 You give your explicit informed consent that we may modify this Agreement in accordance with this Clause 21.
- 22. Variations to Your Agreement**
- 22.1 Unless stated otherwise in your Agreement, we may vary the terms and conditions from time to time and notify you in accordance with the Applicable Regulation(s). Any variations to the terms and conditions shall commence from the date the amendments are communicated to you.
- 22.2 If amendments to the Agreement are reasonably required due to change in any applicable laws, regulations or codes, then we may make such amendments, which shall commence from the date the amendments are communicated to you.
- 22.3 No variation of the provisions of the Agreement shall be expressed or inferred from a course of dealing.
- 23. Assignment or transfer of Your Agreement**
- 23.1 You may not assign, transfer or novate this Agreement without our consent.
- 23.2 We may also assign, transfer or novate this Agreement, and/or transfer you as a customer, to any third party with your consent.
- 23.3 The Agreement is only in respect of sale to the Supply Address, and is not transferable to a new supply address.
- 23.4 If you are moving to a new supply address you must end this Agreement. We would be pleased to make you an offer to sell electricity to any new supply address, although the Charges included in that offer may differ from those under this Agreement.
- 23.5 If we are no longer entitled to sell electricity due to a Last Resort Event (where applicable) you will be transferred to a Retailer of Last Resort.
