

## Standing Rates Distribution Region – Endeavour Energy

The following charges are provided with our **Standing Contract** for electricity sites within the Endeavour Energy distribution region, based on the applicable network tariff and metering configuration.

**Residential Customer** standing offers: single rate, two rate (single rate with controlled load), time of use and solar sharer offer.

**Small Business Customer** standing offers: single rate, two rate (with controlled load) and time of use.

Residential Standing Rates   Regulated Tariffs		Unit	inc. GST
<b>Single rate</b>	daily supply charge	\$/day	1.8513
	all day usage rate	\$/kWh	0.3372
<b>Time of use</b>	daily supply charge	\$/day	1.8513
	high season peak usage rate (4pm–8pm (Nov–Mar; working weekday))	\$/kWh	0.4657
	low season peak usage rate (4pm–8pm (Apr–Oct; working weekday))	\$/kWh	0.4713
	solar soak usage rate (3pm–9pm Nov–Mar; Jun–Aug)	\$/kWh	0.1234
	off-peak usage rate (all other times (8pm–10am and 2pm–4pm working weekday; and 2pm–10am weekends and public holidays))	\$/kWh	0.3569
<b>Solar Sharer Offer</b>	daily supply charge	\$/day	1.8513
	peak usage rate (4pm–8pm (working weekday))	\$/kWh	0.4874
	off-peak usage rate (2pm–4pm & 8pm–10am (working weekday); 2pm–10am (weekends and public holidays))	\$/kWh	0.3753
	solar soak usage rate (10am–2pm (all days))	\$/kWh	0.1418
	free usage rate (11am–2pm (all days))	\$/kWh	-
<b>Controlled load 1</b>	daily supply charge	\$/day	0.1389
	all controlled load usage rate	\$/kWh	0.2064
<b>Controlled load 2</b>	daily supply charge	\$/day	0.1389
	all controlled load usage rate	\$/kWh	0.2208

A representative *residential customer (without a controlled load)* to whom the **single rate** applies for regulated tariffs and who consumes 4,900 kWh per year from the grid will pay \$2,328 which is equal to the comparison price set by the AER\*.

A representative *residential customer (without a controlled load)* to whom the **time of use** and **solar sharer offer** rate applies for regulated tariffs and who consumes 4,900 kWh per year from the grid will pay \$2,320 which is equal to the comparison price set by the AER\*. A representative residential customer on the solar sharer offer will not pay any variable usage charge for electricity used that does not exceed the reasonable use cap, being 24 kilowatt hours, during the free usage period (but may still have to pay other charges, such as supply charges).

A representative *residential customer (with a controlled load)* who consumes 4,900 kWh per year from the grid on the single rate, time of use and solar sharer offer and has a controlled load that consumes 2,200 kWh per year on the controlled load rate will pay \$2,833 (with controlled load 1), \$2,865 (with controlled load 2) and \$2,894 (with controlled load 1+ controlled load 2), which is also equal to the comparison price set by the AER. Your bill will differ based on your actual usage.

Small Business Standing Rates   Regulated Tariffs		Unit	inc. GST
<b>Single rate</b>	daily supply charge	\$/day	2.4413
	all day usage rate	\$/kWh	0.3451
	all day usage rate*	\$/kWh	0.3607
	* The second usage charge in Endeavour Energy applies for all usage in excess of 30,000 kWh per quarter		
<b>Time of use</b>	daily supply charge	\$/day	2.4413
	high season peak usage rate (4pm–8pm (Nov–Mar; working weekday))	\$/kWh	0.4967
	low season peak usage rate (4pm–8pm (Apr–Oct; working weekday))	\$/kWh	0.5023
	solar soak usage rate (10am–2pm; all days)	\$/kWh	0.1419
	off-peak usage rate (all other times (8pm–10am and 2pm–4pm working weekday; and 2pm–10am weekends and public holidays))	\$/kWh	0.3879
<b>Controlled load 1</b>	daily supply charge	\$/day	0.1389
	all controlled load usage rate	\$/kWh	0.2064
<b>Controlled load 2</b>	daily supply charge	\$/day	0.1389
	all controlled load usage rate	\$/kWh	0.2208

A *small business customer* on the **single rate** regulated tariff who consumes 10,000kWh per year from the grid will pay \$4,343 (without controlled load), that is equal to the comparison price set by the AER. Your bill will differ based on your actual usage.

A *small business customer* on the **time of use** regulated tariff who consumes 10,000kWh per year from the grid will pay \$4,326 (without controlled load), that is equal to the comparison price set by the AER. Your bill will differ based on your actual usage.

**Controlled load tariffs:** Separately metered tariffs used for appliances such as electric hot water storage systems, pool pumps or under floor heating. Controlled Load eligibility and hours of operation are as set by your Distributor.

**Daily supply charge:** a charge that applies for supplying electricity to your property for each day of the billing period, regardless of how much electricity you use.

**kWh:** a 'kWh' stands for kilowatt hour and is the unit of measurement for your electricity usage.

**Residential customer:** A consumer for whom electricity is principally for personal, domestic or household use.

**Small business customer:** A consumer for whom electricity is not principally for personal, domestic or household use, and where the supply is, or will be, at a rate of less than 100 MWh a year.

You can call us during business hours, visit our website or <https://www.energymadeeasy.gov.au/> to find out about our competitive market offers.

### Comparison Price

Electricity plans must be compared to a comparison price set by the AER (Australian Energy Regulator) to make it easier to compare energy plans across the market in each region. The comparison price set by the AER is calculated based on an average usage customer in this region and does not include conditional discounts, solar feed-in credits, concessions/rebates or other fees. We use the same representative customer usage set by the AER to calculate our prices and show how they compare to the comparison price as a percentage. Your actual energy bill may be significantly different and will depend on your actual electricity usage, when you use electricity and if you have solar.

Effective: 1st July 2026
