

Standing Rates Distribution Region – Powercor

The following Charges are provided with our **Standing Contract** for single-rate, two-rate (with controlled load) & time-of-use offers for **Domestic** and **Small Business Customers** electricity sites within the Powercor distribution area based on the applicable network tariff and metering configuration.

Standing Rates, Domestic		Unit	inc. GST
single rate	daily supply charge	\$/day	1.3805
	usage rate	\$/kWh	0.2822
time-of-use (T72)	daily supply charge	\$/day	1.3805
	peak usage rate (4pm-9pm everyday)	\$/kWh	0.4167
	off-peak usage rate (9 pm to 11 am everyday)	\$/kWh	0.2249
	solar soak usage rate (11 am to 4 pm everyday)	\$/kWh	0.1726
Controlled load#	(If applicable) *	\$/kWh	0.1726

^ Truck fee/ rewire/ inspection fee required to accommodate CL with TOU (\$500-\$1000)

* Electric HW or slab heating (DD1) generally available 2300-0700 (with afternoon boost 1300-1600 in winter).

Comparison to VDO: A representative **domestic customer** (without controlled load) to whom the single rate or time of use rate applies and who consumes 4,000 kWh per year from the grid will pay \$1,633 including GST (without controlled load), that is equal to the VDO*. Your bill will differ based on your actual usage.

Standing Rates, Small Business*		Unit	inc. GST
single rate	daily supply charge	\$/day	1.6978
	usage rate	\$/kWh	0.2736
time-of-use (T52)	daily supply charge	\$/day	1.6978
	peak usage rate (9 am to 9 pm weekdays)	\$/kWh	0.3629
	off-peak usage rate (all other times)	\$/kWh	0.1921

*additional COMMS charges may apply for sites >160 MWh pa (T3 or T4 metering)

^ As above (electric hot water only – no slab heating)

Comparison to VDO: A representative **small business** customer on a single rate offer who consumes 10,000 kWh per year from the grid will pay \$3,357 (without controlled load), that is equal to the VDO. Your bill will differ based on your actual usage.

Controlled Load eligibility and hours of operation are as set by your Distributor.

Daily supply charge: a charge that applies for supplying electricity to your property for each day of the billing period, regardless of how much electricity you use.

Domestic customer: a customer who purchases electricity principally for personal, household or domestic use

kWh: a 'kWh' stands for kilowatt hour and is the unit of measurement for your electricity usage.

Small business customer: a customer who is not a domestic customer and whose aggregate consumption of electricity is not more than 40 MWh per annum

You can call us or visit our website to find out about our competitive market offers.

Effective: 1st July 2026

*VDO

Electricity plans must be compared to the Victorian Default Offer (VDO), set each year by the Essential Services Commission to make it easier to compare energy plans across the market in each region. The VDO is calculated based on an average usage customer in this region and does not include conditional discounts, solar feed-in credits, concessions / rebates or other fees. Your actual energy bill may be significantly different and will depend on your actual electricity usage, when you use electricity and if you have solar.
