Everyday Renewable Saver

Market Contract Details - Residential - SA Power Networks

Electricity charges for the SA Power Networks distribution network applicable from 1 July 2025 are shown below.

Diamond Energy has one set of rates for each type of tariff. Generally, when you transfer to us, we will apply the rate structure for the single rate or time of use tariff that corresponds with your underlying network tariff. If you would like to discuss your options, please contact us. The following rates apply for a customer for whom the electricity is principally for personal, household or domestic use and where prices either include or do not include a controlled load tariff.

Daily supply charge 0.9290 \$/day All day rate 0.4732 \$/kWh CONTROLLED LOAD RATE Incl. GST All usage 0.2299 \$/kWh TIME OF USE DEMAND (T52) RATE Incl. All usage 0.2345 \$/kWh		

Based on our electricity prices effective from 1 July 2025, a representative residential customer (without a controlled load) using 4,000 kWh/year on the single rate or time of use tariff in the SA Power Networks would pay an annual amount that is 3% below the Reference Price*. A representative residential customer (with a controlled load) who consumes 4,200 kWh/year on the single rate or time of use tariff in the SA Power Networks and has a controlled load that consumes 1,800 kWh/year on the controlled load rate would pay an annual amount that is 3% below the Reference Price.

With our Pay on Time Discount of 2%, if you pay on time and receive bills by email, you will be a further 2% below the Reference Price. So, with the Pay on Time conditional discount of 2%, available if you pay on time and receive bills by email, and based on a representative residential customer (without a controlled load) using 4,000 kWh/year on the single rate or time of use tariff in the SA Power Networks, the lowest possible annual price is \$2,187 incl. GST.

With the Pay on Time conditional discount of 2%, available if you pay on time and receive bills by email, and based on a representative residential customer (with a controlled load) using 4,200 kWh/year on the single rate tariff and with a controlled load of 1,800 kWh/year on the controlled load rate in the SA Power Networks, the lowest possible annual price is \$2,686 incl. GST.

With the Pay on Time conditional discount of 2%, available if you pay on time and receive bills by email, and based on a representative residential customer (with a controlled load) using 4,200 kWh/year on the time of use tariff and with a controlled load of 1,800 kWh/year on the controlled load rate in the SA Power Networkd, the lowest possible annual price is \$2,683 incl. GST.

The actual amount you pay each year on your electricity bill will differ to the Reference Price and will be based on your usage.

SOLAR FEED-IN	RATE
Diamond Energy Standard Feed-in Rate	0.030 \$/kWh

Eligibility, hours of operation and controlled load/s are set by your Distributor. This is generally overnight. Basic Plan Information containing key details of the plan are available on our website at www.diamondenergy.com.au and will be provided upon request. These are our rates for residential customers that have a residential classification by SA Power Networks. If we find that an alternative customer classification applies, the corresponding customer rates will apply. Offer ID's: Single rate (DIA786927MRE4), Two rate: single rate with controlled load (DIA933992MRE1), Time of use T52 (DIA786900MRE3), Time of use T73 (DIA786881MRE3) and Time of use T52 with controlled load (DIA933995MRE1), Time of use T73 with controlled load (DIA933996MRE1).

Full terms and conditions and Basic Plan Information are available at www.diamondenergy.com.au

Effective from: 1/7/2025

Everyday Renewable Saver

Ongoing agreement with ongoing benefits

DISCOUNTS - applied to usage and supply charges	RATE
Pay on Time	2 %
Conditional, on paying on time and receiving bills by email	2 /0

GREENPOWER OPTIONS	RATE Incl. GST
100%	0.055 \$/kWh
50%	0.0275 \$/kWh

ELECTRICITY TARIFFS

SINGLE RATE

You will be charged the same rate for electricity you use at all times of the day.

TIME OF USE

You will be charged different electricity rates depending on the time of day you are using electricity.

SOLAR FFFD-IN

Our Diamond Energy Standard Feed-in Rate is **3.0 cents/kWh** for solar-PV systems up to 10kW or as otherwise agreed.

DISCOUNTS

Our discounts apply to the daily supply charge and usage rates. If you have solar, we will discount your charges but not reduce your solar feed in credits.

PAY ON TIME

2% discount, which is conditional on full payment by the due date and receiving your bill via email (only). The pay on time discount may appear as a credit on your next bill.

BILLING AND PAYMENTS

Billing is typically quarterly. If you have a smart meter, you can contact us to see if your meter can enable us to bill you monthly.

Payment options include electronic funds transfer (from bank account or credit card), BPay, by cheque, online via credit card or in person at any National Australia Bank branch.

You can also set up bill smoothing to help manage your budget by making weekly, fortnightly or monthly instalments.

FEES (incl. GST

Credit card payment processing fee	0.60%
Dishonoured payment fee (cheque	\$20
Dishonoured payment fee (direct debit	\$10
Late payment fee	\$15

Other fees may apply including, meter special reads, meter installation, meter reconfiguration, re-energisation and de-energisation.

VARIATIONS

We may vary the charges, discounts, solar feed-in rates and our <u>Terms and Conditions</u> from time to time. We will notify you prior to any changes.

COOLING OFF PERIOD

A cooling off period of 10 days applies. You can cancel during this period without penalty by sending an email or giving us a call.

CONCESSIONS

Concessions are available for eligible concession card holders (including health care, pension and DVA Gold Card). Please contact us if you haven't received an email about your concession.

We deliver more electricity sourced from renewables to the grid than our customers consume

GLOSSARY

Daily supply charge: a charge that applies for supplying electricity to your property for each day of the billing period, regardless of how much electricity you use. kWh: a 'kWh' stands for kilowatt hour and is the unit of measurement for your electricity usage.

*Reference Price: Electricity plans must be compared to a Reference Price set each year by the Australian Energy Regulator (AER) to make it easier to compare energy plans across the market in each distribution region for which the AER sets such a Reference Price. The Reference Price for each distribution region is calculated based on the annual usage of a broadly representative customer of a particular type in this region and does not include conditional discounts, solar feed-in credits, concessions / rebates or other fees. Your actual energy bill may be significantly different and will depend on your actual electricity usage, when you use electricity and if you have solar.

Controlled load: is an appliance connected to a separate circuit, normally a hot water system, slab heating or a pool pump, and is metered and runs on a timer set by your distributor.

Distributor: Your distributor is the company who owns all the poles and electricity wires, making it possible to deliver electricity to your home.

Effective from: 1/7/2025
