

Diamond Energy’s Solar iTRACK®, is designed to work with compatible devices, across all platforms and with approved demand response devices. These include electric vehicle charging systems and demand control devices.

The following is the current list of compatible devices. Please note these can change as devices and platforms change. We expect that as the market evolves, this list will continually be extended and updated.

Please find the brand and model on the label of your inverter (device), usually on its right hand side.

Please check it is compatible or if unsure please contact us for assistance.

SOLAR – BATTERY INVERTERS
