

“CLEAN energy that won’t cost you Diamonds!”

Direct offset
between
customer &
generator

Reduce
your energy
costs

Meet your
renewable
energy targets

- Direct alignment between "as produced" and "as consumed" electricity
- Long term supply of energy at either wholesale or fixed prices
- Show your community where your electricity comes from

- Unique and innovative solutions to control your cost
- Use your very own local generation
- Expandable platform for both small and large sites, includes multiple generation and storage.

- Substantiate your mandated RET & Scope 2 emissions
- Long term secure supply of LGCs direct from a generator
- Marketable relationships with a renewable energy generator
